Environmental Sustainability Policy

MCM has been at the forefront of the supply of British Standard topsoil, primary and recycled aggregates, sands and site clearance services in the UK landscape for over 20 years. MCM also provides site and waste management services via its UK trusted partner network, including muck away, bioremediation and Japanese Knotweed removal.

Providing construction materials and clearance services to and from site across the UK since 1997, MCM continues to develop new services and products to help keep its clients at the forefront of sustainable and environmental site and waste management.

Scope

The scope of this policy covers all UK operations. We strive to deliver sustainable solutions guided by our values and engage with our teams, customers and supply chain for the benefit of the environment in which we work and live. It is important to us to emphasis the social, economic and environmental impact of our business in everything we do, and this policy reflects our commitment to ensuring that sustainability is considered through all our business decisions.

Commitment

The MCM Environmental Sustainability Policy sets out our commitment to:

- **promote** responsibility for the environment within MCM and **communicate** and implement this policy at all levels within the business
- **reduce** the use of energy, water and other resources across the business
- **minimise** waste by reduction, re-use and **recycling** methods
- comply with all relevant environmental and health and safety regulations, **legislation** and considerations
- ensure that all our services are developed in a way that is in line with this policy
- encourage all **partners** and suppliers to commit to a similar sustainability philosophy
- identify and provide appropriate **training**, advice and information for staff and encourage them to develop new ideas and initiatives to reduce wastage and improve the environment
- provide appropriate **resources** to meet the commitments of this policy
- promote and encourage involvement in other environmental **initiatives**

Sustainability in Practice at MCM

At MCM, we have several sustainable provisions already in place. We:

- Always source materials as close to a project as possible to help reduce the amount of lorry miles and the impact this has on the environment.

Environmental Sustainability Policy

- Recycle 100% of inert and non-hazardous waste.
- Where possible use public transport to attend site and client meetings or utilise video conferencing and telephone meetings to avoid travel at all.
- Help our clients come to the most environmentally sound option for their waste including, where possible avoiding the need to remove waste at all or re-use on site.
- Work towards the “pathway to zero” initiative with the view to eradicate all waste to landfill.
- Offer our staff access to the “Ride to work scheme” to help reduce carbon footprint.
- Keep abreast of environmental advances and innovations in order to make sure we are always at up to date with sustainable practice.

This policy will be reviewed annually, and any changes will be incorporated and the policy re-published.

Signed:

Shazna Ali
