High Performance Soils, Sands & Substrates from MCM

MCM deliver fully compliant British Standard subsoils, topsoils, rootzones and bespoke blends.

MCM have supplied topsoil, subsoil and aggregates to the landscaping and construction industry for over 20 years. Sourcing local material from a network of trusted partners and a supply chain across the UK, MCM provide over 500,000 tonnes of product every year.

Call to discuss your project requirements, site-specific soils or to request certification on **0330 128 1030**. All products can be supplied in multi-trip bags, artic, tipper or grab lorry.

TOPSOIL		ROOT ZONE		SANDS & SUBSOILS		SuDs AGGREGATES	
 <p>TRU GROW BS 3882 TOPSOIL</p> <ul style="list-style-type: none"> Fully certified 300mm depth Perfect for planting Peat-free 	 <p>ERICACEOUS TOPSOIL</p> <ul style="list-style-type: none"> For acid-loving plant varieties Low pH Lime-free Natural blend 	 <p>LAWN ROOTZONE</p> <ul style="list-style-type: none"> Superb turf base Encourages new root growth For low traffic areas Free draining 	 <p>PITCH ROOTZONE</p> <ul style="list-style-type: none"> Sports and public open space Superior drainage Permeable & porous For high traffic areas 	 <p>BS 8601 SUBSOIL</p> <ul style="list-style-type: none"> For use below 300mm Medium to coarse sand texture Low organic matter, average pH of 7 Friable – non calcareous, single grain sand 	 <p>URBAN TREE SOIL</p> <ul style="list-style-type: none"> Open texture Healthy establishment of roots Superior California Bearing Ratio (CBR) Allows air and moisture for roots 	 <p>0-6mm LIMESTONE</p>	 <p>2-6mm LIMESTONE</p>
 <p>LOW FERTILITY TOPSOIL</p> <ul style="list-style-type: none"> Ideal for wildflower planting Reduces invasive weeds Blended to suit 	 <p>MILL FARM TOPSOIL</p> <ul style="list-style-type: none"> Fully certified 400mm depth Coarse sand blend Extra drainage 	 <p>ROOF GARDEN SUBSTRATE</p> <ul style="list-style-type: none"> TOHA tested Low porosity Lightweight Ideal for roofs & podium landscapes 	 <p>10MM COMPOST</p> <ul style="list-style-type: none"> PAS100 Peat-free Organic Sourced locally 	 <p>PODIUM SUBSOIL</p> <ul style="list-style-type: none"> Ideal for Roof Gardens Suitable for podium slabs Lightweight underlayer 	 <p>SS SAND</p> <ul style="list-style-type: none"> Land based Perfect for use as a subsoil Naturally occurring Stone-free 	 <p>10mm SHINGLE</p>	 <p>FULL RANGE OF PRIMARY & RECYCLED AGGREGATES</p>
 <p>BIORETENTION TOPSOIL</p> <ul style="list-style-type: none"> SuDs layer For swales and rain gardens Reduces flood risk Drains well 	<p>“ Always impressed with the helpful response, the speed and the options discussed. ” Construction Director, Randle Siddeley</p> <p>“ A safe pair of hands, with the service, product range, technical knowledge and value for money that we look for in a supplier. ” Operations Director, idverde</p>		 <p>0-4MM MARINE SAND</p> <ul style="list-style-type: none"> Marine dredged River washed Naturally rounded Locally sourced 	 <p>FULL RANGE OF PRIMARY & RECYCLED AGGREGATES</p> <ul style="list-style-type: none"> Solution to excess surface water Reduce water pollution Free draining Important for green infrastructure
