

Landfill Tax is charged on material disposed of at a landfill site or an unauthorised waste site. As such, said the Treasury, it encourages “efforts to minimise the amount of material produced and the use of non-landfill waste management options, which may include recycling, composting and recovery”.

The tax was first introduced on 1 October 1996 to encourage waste producers and the waste management industry to switch to more sustainable alternatives for disposing of material.

There is a lower rate of tax (which applies to less polluting qualifying materials covered by two Treasury Orders) and a standard rate (which applies to all other taxable material disposed of at authorised landfill sites).

## Latest Landfill Tax Rates

The latest and future tax rates – which are currently the same for all areas across the UK – are:

Landfill Tax £ per tonne (England)	From 1 April 2025	From 1 April 2024	From 1 April 2023
Standard rate	126.15	103.70	102.10
Lower rate (inert)	4.05	3.30	3.25

The increase is in line with the Retail Prices Index (RPI)
